Subject: HTC/NFB Mobilization

I received a verbal today for the removal work. I will submit a new removal TDD along with amendment info for the existing assessment TDD.

To clarify, I am just looking to move up the NFB property boundary survey to April 5th (travel 4th and 6th). That way I can bring the ERRS RM to both HTC and NFB prior to the April 18th assessment/removal work and oversee the property survey at NFB. I know that you will be at CRU that week. If Pete is available that would be great. We really just need Weston to oversee the subcontractor performing property survey. Can you please see if the sub is available for the 5th?

As far as HTC removal, you are correct, the tasks are only to scribe/photo document ERRS activities during the temporary fence installation. We will perform some gamma survey work to clear the fence areas. Lyndsey or I will most likely be conducting that survey work. We will be utilizing EPA equipment for all of that.

Thanks

Subject: HTC/NFB Mobilization

Hi Eric,

In reviewing your email below, I would like to suggest that if you are planning on moving up the HTC/NFB event to April 4-6, we will need to know on time as this would determine how we schedule the NFB property boundary RFP. The subcontractor would need a firm date to come out for that NFB work scope.

Also bear in mind, that week, I will be at CRU. If you do not specifically need me at the HTC site we will provide other personnel to undertake the task.

Furthermore, I would like to clarify that the removal portion of this proposed mobilization to HTC is only to scribe/photo document ERRS activities during the temporary fence installation. Yes?

Please let me know if you have any comments.

Thanks,

Ben Nwosu

Subject: HTC Cost Estimate-Removal

Hi:

Besides the assessment aspect of HTC (Which we have a TDD and in the next few days will revise it for the April 18th trip), we have a proposed removal action that I may be getting a verbal for this week. We are proposing to install fencing around the main area (Area 1). We will need to do some survey work there while installing the fence, documentation and photo documentation. I will need one person to be involved in this process. However, this person can contribute to both the assessment work and removal work as determined by lead Weston rep and OSC. For right now, we are looking for about 8 days of work (First trip in April 18th for 4 work days and two travel days) and then another second trip TBA (4 work days, two travel days). Can I get a rough estimate of Weston cost for this task?

Also, if I get this verbal in time, I am looking to maybe visit both HTC and NFB (April 4-6). If this happens, is there any way to move up the NFB property boundary assessment to April 5th?

Thanks

Regards,

Eric
